SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD:

This brief report covers a period extending from the spring term of 1930 to January 1, 1931.

The most interesting school event last spring was graduation. Three pupils were graduated from the Elm School, and one from the East School. A very interesting program was presented by the four schools in the town hall before a large audience of interested citizens. The superintendent of schools delivered an address and presented the diplomas in behalf of the school board. The number of graduates this year is larger than last year. Let us look forward to graduation as the greatest event of the year.

A technical discussion of standardized tests in school work would be out of place here. We must mention, however, the fact that last spring form B of the Otis achievement test was given in all the schools. Form A was given in the fall term. The results showed that both teachers and pupils had worked, and also that a marked improvement in scholarship had been made during the course of the year. The tests we gave last year revealed scholarship of a general character. This year, at this writing, New Stanford Achievement tests in Arithmetic and in Reading have been put in the teachers' hands to administer by February first. These tests are in specific subjects. Form A has been given now. In the spring before school closes we will give Form B. By a comparison of results we shall then be able to tell whether or not the children are up to grade, and if improvements have been made during the course of the year. Several years will be necessary for a complete testing program in all school subjects. Gradually, we will accomplish this. As soon as weaknesses are discovered, we will endeavor to apply the proper remedies to see that the school district is not wasting its funds, and the pupils their time.

The schools of Holderness have been gradually well provided with plenty of modern text books, maps,

globes, and school supplies. Newspapers and magazines have been furnished to the various schools this year in order to make children's interests world wide.

The vacancies which occurred in the teaching staff last spring were filled, one by a successful teacher of several years' experience, and the other by a promising teacher just out of Normal school. The work which they have done has justified our selection.

All the schools are provided with electric lights, jacketed stoves, and with chemical toilets in all but one, namely, East Holderness. The school board is considering the installation of chemical toilets in the last named school.

The problem of a water supply for the Bridge and the Elm schools has not been solved yet. This is a serious problem.

More should be done in the way of playground activities for the children.

School yards should be improved by further grading, and the planting of shrubbery. School houses should stand out as objects of beauty and joy, in the midst of properly arranged and cared for yards.

Holderness has tuition pupils attending elementary and high school in all the bordering towns. The number of such pupils and the expense are so great that they present a serious problem. Further study should be made of the situation to see if a more satisfactory solution can be found.

The fact that the improvements and progress described earlier in this report have been made shows that we are on the right track. In due time that which remains to be done will be accomplished, and everybody concerned will be happier.

Respectfully submitted,

VINCENT GATTO,
Superintendent of Schools.

REPORT OF SCHOOL BOARD

The School Board wishes to bring to the minds of the parents and taxpayers that the expenses are being held down as best they can be. Each year sees more pupils sent to High Schools of surrounding towns, for which we feel proud that our young people are striving for a better education. Also our elementary school attendance increases. This year we have in our schools alone, ninety pupils; besides those sent to other towns for which we pay tuition. There are now five in Ashland Grammar School; twenty in Plymouth Model School, and fourteen in Center Harbor.

Besides the above mentioned the State Valuation has gone up, and we now have to raise more money for general support of our schools than before.

During the coming summer our plans are to freshen up the school rooms with new paint, and do the minor repairs needed.

We solicit the continued interest of the citizens of the School District in the school work, also any inquiries into this report, or our plans for the coming year.

Respectfully submitted,

MILDRED F. CRAIG, Secretary

ERNEST F. GAY,

DOROTHY H. FORBES, Chairman,
School Board.
